avoiding FS 22B and last half mile Duckett Ridge rd bc of rough road conditions especially in rain or cold temps. Flagged reroute is in area to be logged -- not viable route. Bullet riddled @TN68 - move inland. Unicoi Mt Nobo, John Muir signs in bad shape. Add BMT sign pointing to right at John Muir intersection so a SOBO hiker doesnt turn left in a 3-way intersection. Coker Creek Bridge is slippery - needs non-slip - Rick has tape 8/2021). Rick sent request to Mason 10/27/23. 8 chainsaw blowdowns . 7 easier to remove coming in Coker Crk Bridge, climb up, then cut downhill. Narrow trail now - more so above 3 foot-rootball hole Minor water diversion work 3 locations obvious after heavy rains

Last Work Trip	1/25/2020 8/29/2021 10/17/2022 11/4/2022 12/19/2022 8/24/2023	Last Report 8/24/2023 NOTE OTHER PROBLEMS REROUTE ISSUE SIGNS TREAD	Last Logged	8/24/2023	Last Brushed	8/24/2023	Last Blazed	1/25/2020	Last Cleared	8/24/2023
Monitor puddles not having sufficient slope nearby to run water off. Picnic table collapsed Flagged reroute is in area to be logged -- not viable route. SIGNS - 2 need attention. Temp cardboard temporary sign about 300' from Buck Bald Rd depicts pic of motorcycle as permitted on this section. Worked here 9/2020. Believe new wooden sign was missing. If not on a "to-do" list, a wooden sign would be good. Also, wooden sign visible from TN 68 has many bullet holes from passing vehicles. Pst on right side splitting but not rotten. Wouldn't replace it just yet bc a new sign would receive more bullets. Suggest moving the sign 100' from highway out of view of cars. Wooden sign on 14a across TN 68 has even more bullet holes. Continuing issue - deep gullies created by motorcycles
